

IB RESULTS MAY 2012

We have taken the IB Challenge head on. In most of the subjects our School's average is much above the World average, and that is the heartening news to all of us.

Devapriya Unni scored 42 points, the highest in the IB Programme and Kasturi Bhagirath Jogdand scored 40, coming a close second. Yash Sandeep Gore with 36 points stands third in the school.

The highest score of 7 is achieved by 8 students while a big total of 30 students scored 6 points in most subjects.

Biology, Business and Management, Economics, French, Mathematics and Psychology are the subjects where our students have scored the highest of 7 points. Kudos to the students and teachers of those subjects!

Students taking languages like English and Hindi along with other Science and ITGS have scored a liberal 6 points.

Six of our students got the full 3 bonus points.

A total of 33 students were awarded the Diploma. We are proud of them and wish them well for their future.

Let the torch of GSIS burn brighter to light up the future of many more students in the years to come.

We thank all the teachers and students who have hoisted the flag of GSIS high in the sky!
