

IGCSE RESULTS – 2014

“I like people who are able to keep pushing themselves and challenging themselves even after great success.” - *John C. Reilly*

We at Good Shepherd International School are still in our pursuit towards pushing ourselves and challenging ourselves, even after great success stories. The International General Certificate of Secondary Education (IGCSE) Examination results for the year 2013-2014 mark another episode to these series. We are proud to inform that we have lived up to our vision and mission. We have worked tougher, strived harder and hence could soar higher.

The IGCSE result for the year 2013-2014 has sparkled and brightened our hearts. The challenge of taking examinations in nine compulsory subjects this year, could not deface our students' performance. **The batch-toppers, Joseph Leander (Science) and Sahil Mirchandani (Commerce) scored a walloping seven A*s each. Rohan Kalwani and Parikshit Vikas Ganeriwala secured 6 A*s while Anuraag Manjunatha, Abhi Ajay Mittal and Nuzla Noorudheen Kalathil gained 5 A*s.**

13 students notched A*s in French whereas 13 A*s were scored in Biology. A total of nineteen students secured distinction and sixteen students achieved merit. Over-all 73 A*s, 98 As and 89 Bs were scored in different subjects by our diligent students. We appreciate the conscientious and tireless trudges they had throughout the year, to achieve such spectacular results.

Our humble endeavor to brighten up the dark alleys of the world with the candle of education is aided by the Almighty's grace. We are delighted to reap the return for the long hours of meticulously planned teaching hours, night preps and the tuitions we invested in. Our growth is evident and the result speaks volume about our workforce's productivity.

The school believes that all humans are born alike; it is education which makes them different. Education: **a continuous drive of acquainting students with the very best of learning experience and intellectual curiosity, while clinging to the roots of tradition.** We are certain to bring a remarkable difference in this world by providing disciplined, compassionate, tolerant and accountable individuals of our cute and beautiful children.

“Excellence is the result of caring more than others think is wise, risking more than others think is safe, dreaming more than others think is practical, and expecting more than others think is possible.” On this occasion, we want our dear parents to realize that we do care greatly for your precious jewels, risk entirety for their well-being, dream ceaselessly about their future and expect eventually to see them evolved as globally-minded citizens.

With the Almighty's grace and our parents' unflinching support, we would certainly go miles beyond these achievements in the future to come!
