

CAMBRIDGE PRIMARY CHECKPOINT

RESULTS (2015-2016)

The young sheep of Good Shepherd International School have proved their mettle once again. They displayed their worth by showing spectacular results making their Alma mater as well as their parents proud.

The highest achievers this year's batch were several in number namely **Achuthanand Madanapalli; Allan Siju Mathew; Denize Everlene D'Souza; Harshil Aggarwal; Harshul Amin; Ravina Jaywant Patil; Zoya Mannan** scoring the perfect magical score of 18. To achieve this perfect goal they had to attain the highest possible points of 6 in all three subjects: Mathematics, Science and English. The ones, who were not far behind were **Hariyanth Nagesh** and **Meet Dobariya**, who missed just a 0.1 and 0.2 difference respectively.

An able crew, who was behind the wheel of this success-bringing ship, was our dedicated facilitators. Among the 38 examinees, there were 7, who scored the highest score 6 points in English; 11 scored the target of 6 points in Mathematics and the same 11 achieved the magic points of 6 in Science. This laudable achievement had been possible for our school's 'holistic' approach to education.

We commend all our achievers highly for their remarkable performance and we believe that they will attain high benchmarks in their scholastic journey.
